City of Scappoose Hosts Open House on Economic Opportunity Analysis

The City of Scappoose is performing an Economic Opportunity Analysis to determine the City's economic goals, policies and land needs concerning commercial and industrial development within City limits and the Urban Growth Boundary (UGB). Members of the public are invited to attend a community open house on the topic:

Wednesday, May 5, 2010

6:00 PM to 8:00 PM

Council Chambers of Scappoose City Hall

33568 E. Columbia Avenue

Scappoose, OR 97056

This will be a drop-in event with no formal presentation. The open house will provide an opportunity to discuss the project with the advisory committee members, to review preliminary findings, and to provide input on the direction of the City's future growth. Stop by any time during the open house to view the materials and talk with the advisory committee members, City staff, and the consultant team.

An advisory committee has worked with a consultant team to identify the amount of additional land needed to be brought into the UGB for future commercial and industrial development. The committee will make recommendations regarding areas suitable for inclusion in the UGB to the Scappoose Planning Commission and City Council and the Columbia County Planning Commission and Board of Commissioners.

If you have any questions regarding the Economic Opportunities Analysis, please contact Jon Hanken, City Manager, at jonhanken@ci.scappoose.or.us or (503) 543-7146.
