

Columbia County Transportation System Plan Update: Public Open House

What is the Transportation System Plan?

The Transportation System Plan (TSP) provides a long term guide to County transportation investments. The plan evaluates the current transportation system and determines how it could be improved to make travel in Columbia County better.

Columbia County is beginning the process to identify opportunities to improve our current transportation system and forecast what it may look like through 2035. We need your help discussing priorities given limited transportation funding.

Major Components of a TSP

We are at this step!

Goals and Objectives	Transportation Conditions	Alternatives Evaluation	Draft TSP	Final TSP
Develop project goals, objectives and evaluation criteria	Review the transportation system to identify current conditions and problems, and determine future needs	Identify and evaluate solutions and projects for the identified needs of the transportation system through 2035	The solutions and projects that best meet the project goals, objectives and evaluation criteria will be incorporated into a Draft TSP	Planning/ County Commissioner Public Hearings, and County adoption of Final TSP.
	Open House Series #1	Open House Series #2		Public Hearings

Purpose of the Open House

Come learn about the update of the Columbia County TSP and give us your thoughts about how to solve current and future transportation issues in the County.

The Open House will include more information about transportation issues in Columbia County through 2035, and interactive stations for drawing, writing, and talking.

Documentos sobre el proyecto están disponibles a pedio.
